| <b>Organization providing notice under section 34.1 of PIPA</b> | Clarcor Inc. (Organization)  |
| <b>Decision number (file number)</b>                            | P2015-ND-31 (File #P2919)  |
| <b>Date notice received by OIPC</b>                             | November 20, 2014  |
| <b>Date Organization last provided information</b>              | January 14, 2015   |
| <b>Date of decision</b>   | May 15, 2015   |
| <b>Summary of decision</b>                                      | There is a real risk of significant harm to the individuals affected by this incident. The Organization is required to notify those individuals pursuant to section 37.1 of the <i>Personal Information Protection Act</i> (PIPA).   |
| <b>JURISDICTION</b>   |  |
| <b>Section 1(1)(i) of PIPA “organization”</b>                   | The Organization is incorporated in the United States. I have jurisdiction because the Organization is an “organization” as defined in section 1(1)(i) of PIPA.  |
| <b>Section 1(1)(k) of PIPA “personal information”</b>           | The incident involved all or some of the following information: <ul style="list-style-type: none"><li>• name,</li><li>• job title,</li><li>• date of birth,</li><li>• gender,</li><li>• address,</li><li>• telephone number,</li><li>• job code,</li><li>• salary,</li><li>• email address,</li><li>• supervisor’s name,</li><li>• hire date,</li><li>• employee number, and</li><li>• Social Insurance Numbers (SINs) for four employees (two</li></ul> |

|  |   |

| trivial consequences or effects. | due to the relationships between co-workers. In my view, these are significant harms. |
|----------------------------------|---|

|  |   |
|--|---|
| <p><b>Real Risk</b><br/>The likelihood that the significant harm will result must be more than mere speculation or conjecture. There must be a cause and effect relationship between the incident and the possible harm.</p> | <p>The Organization reported that, notwithstanding the sensitivity of the information, it believed that there was no real risk of significant harm to the affected individuals for the following reasons:</p> <ul style="list-style-type: none"> <li>• The information was only sent to internal employees, bound by a confidentiality clause.</li> <li>• The information was recovered and destroyed upon discovery of the breach.</li> <li>• All employees confirmed in writing that they no longer possessed the information.</li> <li>• The Organization reminded employees of their confidentiality oaths.</li> <li>• Due to the location of the data (a separate tab on a spreadsheet), it is not likely that the employees viewed the personal information.</li> <li>• During the three weeks that the information was exposed, the Organization received no indication from any of the affected employees that he or she had received the information.</li> </ul> <p>I agree these factors reduce the likelihood of harm resulting from this incident. However, while the Organization confirmed the personal information was no longer in the possession of the unauthorized recipients, it did not confirm that the information was not viewed by them. In the absence of such an assurance and given the length of time the information was exposed (3 weeks), I find that there remains a real risk of significant harm resulting from this incident.</p> |
|--|---|

**DECISION UNDER SECTION 37.1(1) OF PIPA**

Based on the information provided by the Organization and given the circumstances of the incident, I have decided that there is a real risk of significant harm to the affected individuals. The types of harm that could result from this incident are identity theft and fraud, as well as possible embarrassment/humiliation due to the relationships between co-workers. In my view, these are significant harms. The Organization identified a number of factors that reduce the risk of harm resulting from this incident; however, while the Organization confirmed the personal information was no longer in the possession of the unauthorized recipients, it did not confirm that the information was not viewed by them. In the absence of such an assurance and given the length of time the information was exposed (3 weeks), I find that there remains a real risk of significant harm resulting from this incident.

I require the Organization to notify the affected individuals in accordance with section 19.1 of the *Personal Information Protection Act Regulation* (Regulation).

I understand that the Organization notified the affected individuals in a letter dated November 4, 2014. Therefore, the Organization is not required to notify the individuals again.

Jill Clayton  
Information and Privacy Commissioner
