The affected individuals are part of a vulnerable population (seniors).</p>

DECISION UNDER SECTION 37.1(1) OF PIPA

Based on the information provided by the Organization and given the circumstances of the incident, I have decided that there is a real risk of significant harm to the affected individuals.

A reasonable person would consider that the financial information at issue could be used to cause the significant harms of identity theft and fraud and financial loss. The likelihood of harm resulting from this incident is increased because the personal information was compromised due to deliberate action (impersonation). Further, the affected individuals already experienced a financial loss as a result of the unauthorized access, which was reimbursed by the Organization. The affected individuals are part of a vulnerable population (seniors).

I require the Organization to notify the affected individuals in Alberta, in accordance with section 19.1 of the *Personal Information Protection Act Regulation* (Regulation).

I understand the affected individuals were notified in person on December 20, 2018. The Organization is not required to notify the affected individuals again.
